Subject: FROM RYZUR MEDICAL

Dear Sir/Madam:

We are the KN95 mask manufactory from China. P.R, we found that , CDC was just released a testing report for China made KN95 masks, we found that we were failed of testing . In the report, we found that the packing looks like our packing, but that is domestic version of products which we should sold in P.R.CHINA and never be sold to the USA. All our products before we released from our manufactory we all do self testing , after QA then we released to the market. So, we think the testing samples did by CDC was fake products, i.e. not made by RYZUR. In China we have already found fake products So, in this case, could you please give us an advice how to handle this with CDC together to against the fake products and how to process to the next step.

LISTED MANUFACTORY : ANHUI RYZUR MEDICAL EQUIPMENT MANUFACTURING CO.,LTD

DAVID REN
CEO AND PRESIDENT OF RYZUR MEDICAL CORP

尊敬的先生/女士：

我们是来自中国的 KN95 口罩制造厂，我们发现，疾控中心刚刚发布了一份中国产 KN95 口罩的检测报告列表，我们发现我们检测不合格。

在报告中，我们发现包装和我们的包装很像，但那是我们应该在中国销售的产品的国产版本，并没有销往美国。我们所有的产品在出厂前都做了自检，在质量保证后才投放市场。所以，我们认为 CDC 做的检测样品是假冒产品，即不是由 RYZUR 制造的。

在中国，我们已经发现了假冒伪劣产品，因此，在这种情况下，您能给我们一个建议，如何与疾病预防控制中心一起对付假冒伪劣产品，以及如何处理到下一步。

主题: RE: FROM RYZUR MEDICAL

Hello David,

Thank you for your inquiry. NIOSH has been informed that many manufacturers in China have been counterfeited. Unfortunately, U.S. consumers have no way of knowing which products are counterfeit and which products are authentic. You indicated that the packaging resembles your domestic packaging that is only sold in China. We have seen other manufacturers' products, that were made to be sold only in China, being exported to the U.S. NIOSH suggests you take whatever steps are necessary to show the differences between your product and the counterfeit product to potential purchasers by providing information on how to identify product manufactured at your factory. You should also notify your exporters and distributers about the counterfeited product, as well as your local law enforcement agencies.

Thank you,
NIOSH

你好，大卫，

谢谢你的咨询。NIOSH 获悉，中国许多制造商都被仿冒。不幸的是，美国消费者无法知道哪些产品是假冒的，哪些产品是正品。你方表示包装与你方仅在中国销售的国内包装相似，我们也看到其他制造商的产品（仅在中国销售）出口到美国。 NIOSH 建议您采取一切必要措施，通过提供如何识别您工厂生产的产品的信息，向潜在购买者展示您的产品和假冒产品之间的差异。你还应该通知你的出口商和经销商关于假冒产品，以及你当地的执法机构。

谢谢您，

NIOSH

Subject: 答复: FROM RYZUR MEDICAL

Dear Fries:

Thank you so much for your kindly reply, and we have already arrange our team to continue to upgrade our packing to adding Anti-counterfeiting processes in our manufacturing, such as put on anti-counterfeiting label etc. Thank you so much for your kindly advices.

And plus, if possible , could you please do me a favor that, can you send us where NOISH got the samples for the failed testing? Then we can through the pathway to check where the fake products come from and then we can report to our local government department or agencies.

Thank you so much!

David Ren

亲爱的 Fries:

非常感谢您的回复，我们已经安排我们的团队继续升级我们的包装，在我们的制造过程中增加防伪工艺，如贴上防伪标签等。非常感谢您的好意。

另外，如果可能的话，您能帮我一个忙吗，您能发给我们 NIOSH 从哪里获得这些失败的测试的样品吗？然后我们可以通过这条途径来追查假冒产品的来源，我们可以向当地政府部门或机构报告。

非常感谢！

任 大卫 （任嵩）

Hello David,

These samples were sent to NIOSH from a worker in the United States. We have no additional information regarding the importer, supplier, or distributor of the samples.

Thank you,
NIOSH

你好 大卫,

NIOSH 检测的这些样品来自一个美国的工人，我们对于样品的进口商，供应商，和分销商没有任何更多的信息。

谢谢,

NIOSH

主题: RE: FROM RYZUR MEDICAL

Dear Fries:

Thank you so much for your kindly reply, we fully understand NOISH may cannot give us the anonymous reporter's contact info, in this case we will continue to upgrade our anti-counterfeiting technologies to protect our customers especially in this difficult period. RYZUR Medical Group have already in the medical industry for nearly 15 years, we have 5 hospitals with about 2000 doctors

and staffs with 3000 beds around China, during the COVID-19 battle in China, our doctors and staffs in RYZUR's hospitals were in the front line with the patients. We also have two medical devices manufactory sites in China , BEIJING AND ANHUI HEFEI ,more than 1000 staffs working in our personal protective products department, so we fully know that how the low quality fake masks may cause what bad effort to the people's life or even cause people die. we really thank you and NOISH's team the kindly reply to together helping us to fighting with the counterfeiting products. We are now under applying NOISH testing, we believe in the near future, we will get the NOISH certificate from your side, and we really wish to working with your guys to together fighting in the COVID-19 battle , we always believe God bless the people on the land of the United States of America.

Thank you again ! And all the best!

David Ren

CEO and President of Ryzur Medical

亲爱的 Fires:

非常感谢您的回复，我们完全理解 NOISH 可能无法提供匿名送样者的联系方式，在这种情况下，我们将继续升级我们的防伪技术，以保护我们的客户，特别是在这个困难时期。瑞德医疗集团在医疗行业已经有近 15 年的历史，在全国有 5 家医院，2000 名左右的医生和员工，在中国的 COVID-19 战役中，我们瑞德下属和合作的医院的医生和员工都站在与病人一起的第一线。我们在中国还有北京和安徽合肥两个医疗器械制造厂，1000 多名员工在我们的个人防护用品部门工作，所以我们完全知道劣质的假口罩会给人们的生活带来什么样的影响，甚至导致人们死亡。我们真的非常感谢您和 NOISH 的团队的友好回复，共同帮助我们打击假冒产品。我们现在正在申请 NIOSH 测试，我们相信在不久的将来，我们会从你们这边拿到 NIOSH 证书，我们真的希望和你们的人一起在 COVID-19 战斗中战斗，我们永远相信上帝保佑美利坚合众国的人民。

再次感谢！

一切都好！
